ILLINOIS DOCUMENTS

The Job Training Partnership Act (JTPA) of 1982 is federal legislation permanently authorizing job training programs for economically disadvantaged individuals and others who face serious barriers to employment.

The Act gives a larger role to the State, which has administrative responsibility for training programs, and to the private sector, which has equal authority with local governments in planning and implementing programs.

The Illinois Department of Commerce and Community Affairs is responsible for the administration of JTPA in Illinois.

For further information on JTPA contact the DCCA Division of Job Training Programs at 217/785-6006 ; or the DCCA Division of Marketing at 217/782-6861 or 312/793-6649; or the local Private Industry Council within your SDA.

TITLE I

Title I establishes the structure for the delivery of job training services and outlines the functions and responsibilities of State and local governments and the private sector.

Specifically the Act provides for the following:

- Outline of the Service Delivery Area (SDA) systems. (Twenty-six in Illinois—see map on back panel.)
- Establishment of the State Job Training Coordinating Council (SJTCC).
- Functions of the Private Industry Council (PIC). A majority of members must be from the private sector.
- Partnership between PICs and Chief Elected Officials (CEOs).
- State education and older individuals programs; incentives for performance.

TITLE II-A

Title II authorizes a wide range of training activities to prepare economically disadvantaged youth and adults for unsubsidized employment. Training services may in-

clude activities such as on-the-job training, institutional and classroom training, remedial education and basic skills training, job search assistance and counseling, and, at local option, exemplary youth programs.

Forty percent of the funds available for such services shall be expended for eligible youth. Ninety percent of the participants in each service delivery area must be economically disadvantaged. Up to 10 percent of the participants may be eligible if they face serious barriers to employment. These participants may include handicapped individuals, offenders, displaced homemakers, older workers, teenage parents, and others.

TITLE II-B

A summer youth employment and training program is authorized separately under this Title. Funds are allotted to the States and allocated to the SDAs on the same basis as in the regular training program. Eligibility for the summer youth program is the same as for youth in the basic training program, except that youth age 14 or 15 may also be served based on local needs.

TITLE III

This Title authorizes a new State-administered dislocated workers program.

The program provides training and related employment assistance to workers who have been, or have received notice they are about to be laid off due to a permanent closing of a plant or facility; laid-off workers who are unlikely to be able to return to their previous industry or occupation; and the long-term unemployed with little prospect for local employment or re-employment. Services may include such activities as job search assistance, retraining, pre-layoff assistance, and relocation.

TITLE IV

Title IV outlines federally administered programs for native Americans, migrant workers, and seasonal farmworkers. Additionally, provisions are made for programs to serve veterans.

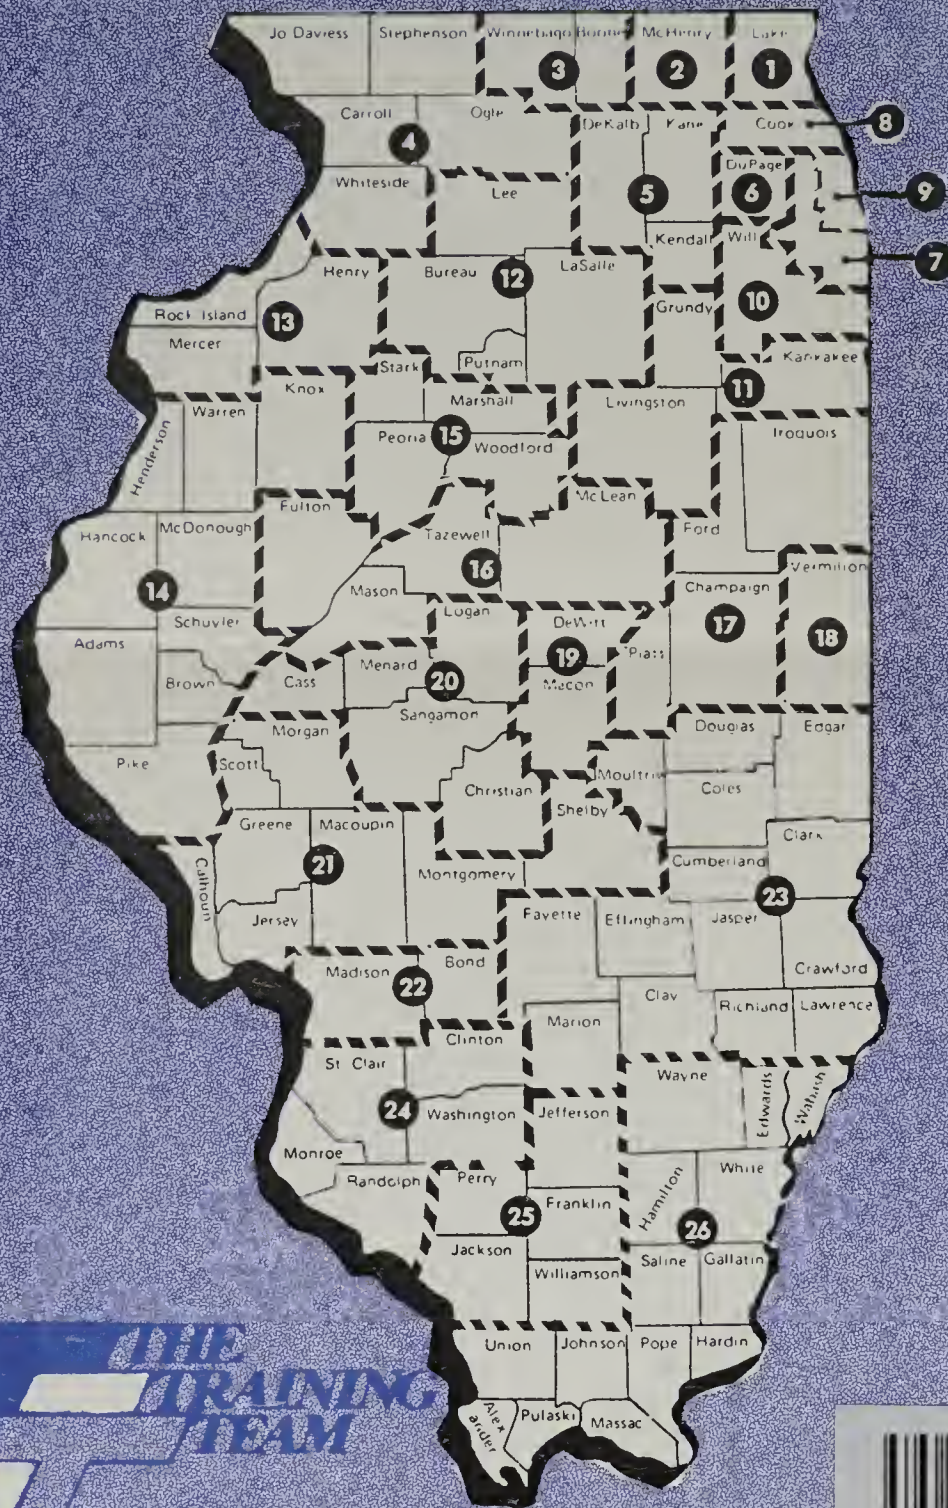

TITLE V

Title V addresses miscellaneous provisions affecting the Wagner Peyser Act and the selective service provisions. Additionally, this Title also provides amendments to the Social Security Act and provisions for enforcement of the Military Selective Service Act.
